REF LNG-ACCESSIBILITY-V1.0

Accessibility statement

Games are for everyone, and so is this website. Here is what we aim for, where we fall short today, and how to tell us about a barrier.

Version v1.0 · Effective 14 November 2026 · 10 sections · 11 clauses

AT A GLANCE

A plain-language summary. The numbered sections below are what applies.

- We aim for WCAG 2.2 level AA on this website.
- Keyboard friendly, with visible focus, readable contrast and alt text.
- Animations stop when your device asks for reduced motion.
- Found a barrier? Email hello@lacspace.com with the subject “Accessibility”.

1 Our commitment

1.1 We want everyone to be able to use this website, whatever device, browser or assistive technology they use.

1.2 We aim to meet the **Web Content Accessibility Guidelines (WCAG) 2.2, level AA**, and we check new pages against it as we build them.

2 Works with a keyboard

2.1 Every link, menu, button and form can be reached and used with a keyboard alone. A “skip to content” link appears first, so you don’t have to tab through the menu on every page.

3 Clear focus and readable contrast

3.1 A visible outline shows where you are when you move with the keyboard. Text is set to meet AA contrast, and colour is never the only way we show something, such as a game’s status.

4 Reduced motion respected

4.1 Our illustrations move gently. If you turn on “reduce motion” in your device settings, the site stops its animations and moving strips, and smooth scrolling is switched off.

5 Images and alt text

5.1 Every illustration has a short description for screen readers, and screenshots and key art carry alt text that says what they show. Decorative shapes are hidden from assistive technology.

6 Video and captions

6.1 We add captions to our trailers where we can, and the key facts in each video are also written on the page around it.

7 Any screen size, zoom welcome

7.1 The site adapts from small phones to wide desktops, and it is built so you can zoom text up to 200% without losing content or scrolling sideways.

8 Downloadable copies

8.1 Every policy can be downloaded as a PDF. The web page is always the most accessible version, and the PDF carries the same text, numbered sections, a document title and clickable links.

9 Known limits

- Some game screenshots and key art contain text inside the image. The important words are repeated on the page.
- Not every trailer has captions yet.
- This statement covers the website. Our games are separate apps; fast-paced modes can need quick reactions, and we keep improving them.

10 Report a barrier

10.1 If something on this site is hard or impossible to use, please tell us. Write to hello@lacspace.com with the subject “Accessibility” and include:

- the page address;
- what you were trying to do and what got in the way;
- your device, browser and any assistive technology you use.

10.2 We’ll reply, tell you what we plan to fix, and help you get the information another way in the meantime.
